Las Vegas, NV | 650-575-3145 | pdimaano7@gmail.com | [LinkedIn](#) | [Github](#)

TECHNICAL SKILLS

Languages - JavaScript, Python, SQL, PostgreSQL, HTML, CSS

Libraries - React, React Testing Library, jQuery

Frameworks / Tools - Node, Express, Jest, Flask, SQLAlchemy, Insomnia, VSCode, Git, Github

SOFTWARE ENGINEER EXPERIENCE

Software Engineer Intern

September 2022 – February 2023

Rithm School

San Francisco, CA

- Upgraded a Numbers-API codebase for retrieving facts about years, dates, trivia and numbers
- Presented information on SASS library and used Flask to update routes obtaining facts
- Constructed data model for “years” route to properly input and validate data into PostgreSQL database
- Implemented limit of 50 API calls per hour using Flask-Limiter extension to prevent malicious attacks
- Created interactive mobile application using React Native to obtain and present database facts

TECHNICAL PROJECTS

Jobly

- Created job search website using React, Node, Express and PostgreSQL with relationships
- Implemented authentication and authorization for routes using JWT tokens
- Constructed React components to dynamically display lists and details for companies and jobs
- Created search function to filter jobs based on title, minimum salary and possible equity

Warbler

- Created Twitter clone using Python, Flask and PostgreSQL
 - Enabled users to view and edit profile information after creating and registering for an account
 - Implemented “like” function for users to like a post and view a list of liked posts
 - Designed tests to ensure correct user following and authorization/authentication functionality
-
